Workshop on Taiwan’s E-Health Industry

Projected training dates: February 14 – February 27, 2014
Application deadline: January 10, 2014
Duration of workshop: 14 days
Number of participants: 30

Target participants: Middle- to senior-level government officials responsible for planning or promoting relevant policies in the e-health industry, or personnel from government health care agencies, health care research institutions or related organizations or industries.

• Age and experience: Applicants under 50 years old and with at least two years’ experience in participating in health care administration or hospital information systems will be given preferential consideration.
• Education: College and above.
• Professional competence: Applicants should have knowledge of the methodologies and mechanisms of e-health and an understanding of their country’s domestic health care administration policies.
• Language: Good command of English.

Information to be provided in advance: Application form.

Information to be provided on arrival in Taiwan:
2. Participant’s report in PowerPoint or Word format, including the following content:
   • An overview of the development of health care administration and related, supporting policies in your country.
   • The current problems and challenges involved in promoting the e-health industry in your country and your work.
   • A case study of a successful or failed case.

E-mail: ys.chen@icdf.org.tw
Introduction:

1. The workshop will aim to share:
   • Taiwan’s experience in promoting the e-health industry through government policies;
   • A brief introduction to electronic medical records, picture archiving and communication systems, the health information database, tele-healthcare services and e-healthcare programs in Taiwan; and
   • Information about Telecare Industry Alliance Taiwan (Ti@T).

2. Training topics will be served through indoor lectures, field trips to relevant government and semi-governmental institutions, and discussion forums where participants will be encouraged to engage in strategic thinking and discuss practical measures.
