Introduction:

1. **The workshop aims to:**

   ➢ Enhance government efficiency and quality life and well-being of citizens.

   ➢ Facilitate the sustainable development of urban economy, community, environment and natural resources.

2. **To assist partner countries in gaining comprehensive knowledge of smart city development, the workshop focuses mainly on Smart Governance, Smart Traffic, Smart Building and Smart Education.**

   Agenda:

   ➤ Indoor lectures: Various topics on smart city development such as big data application and trends in public services, design of smart traffic, integrated applications in smart and green buildings, the building of smart home and smart home applications, integrated applications in smart education and smart link interactive system in libraries.

   ➤ Field trips: Visits to 2018 Smart City Summit & Expo and organizations involved in smart city development.

   ➤ Group presentations: Participants will visit Asia Silicon Valley Development Agency and then present their accomplishments after having a common understanding on smart city development through group discussion.
