Workshop on Renewable Energy

Training dates: July 14 - 27, 2021

Application deadline: May 25, 2021

Number of participants: 20

***How to apply:** Through the R.O.C (Taiwan) embassies, representative offices or Taiwan technical missions.

Introduction:

In the wave of global energy transition, Energy dependency has become a clear issue in Taiwan as well as in its partner countries. Therefore, this workshop will share Taiwan's the renewable energy policies, encountered challenges and latest technologies, including solar power, hydropower, wind power, biomass and geothermal energy.

Objectives:

Aims to assist the partner countries in:

- Balancing economic development and zero carbon emissions.
- Building sustainable renewable energy policies.
- Developing renewable energy industries.
- Boosting competitiveness of renewable energy.

Contents:

- Renewable energy policy
- Renewable energy financing
- Renewable energy technology and market
- Participants are required to present information on the energy section of their country's National Adaptation Programs of Action (NAPA), including proposed objectives, strategies, and different task phases.

Issues this workshop will address:

- How to develop independent renewable energy.
- How to reinforce power supply and stability.
- How to reduce investment costs.

Who may apply:

- Government officials or R&D personnel from Bureau of Energy; Environmental Protection Agency; members of power or renewable energy companies/NPO/NGO.
- Preferred background: Renewable energy engineering, application of energy storage and management, Renewable Energy Certificate management, greenhouse gas reduction.
- Experience: A minimum of at least two years of progressive experience conducting power system transformation or related projects.
- Age: Applicants under 50 years old
- Education: A college degree or above
- Language: A good command of English
