Introduction:

1. The workshop aims to:

- Enhance knowledge and skills in developing circular agriculture policies.
- Assist Asia Pacific partner countries reach the goal of sustainable agriculture by using regenerative agriculture practices.

2. This workshop includes indoor lectures, field visits and exchange platforms, and aims to assist Asia Pacific partner countries in gaining comprehensive knowledge of circular agriculture in Taiwan, and to host business matchmaking events to promote interaction and exchanges.

Agenda:

- Indoor lectures: Taiwan's strategies on circular agriculture, industrial trends and market niche, introduction of Taiwan Technical Mission projects relevant to circular agriculture, biogas power generation and applications in regenerative agriculture.
- Field trips: Complementary to the indoor lectures, visiting agribusinesses and participating in Circular Economy Taiwan expo.
- Exchange platform: To host business matchmaking events to promote interaction and exchanges. Participants will share the current situation of circular agriculture in their country, and present their accomplishments after having a common understanding on circular agriculture development through group discussion.
