

Emerging Stronger after COVID-19:

Science, Technology, and Innovation for Sustainable Development

Panelist

Pai-Po Lee

Deputy Secretary General, International Cooperation and Development Fund (TaiwanICDF)

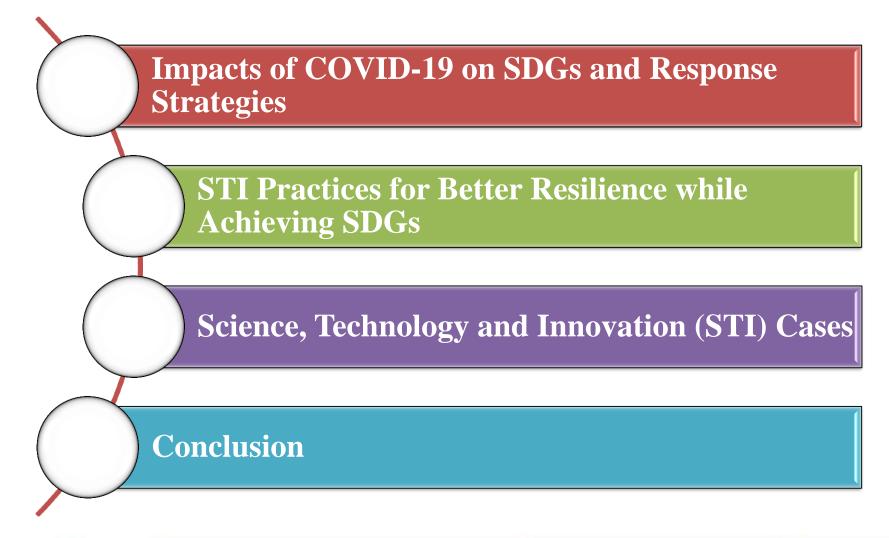

Post-Pandemic Resilience through STI: Practices in Education, Health, and Food Systems

Deputy Secretary General TaiwanICDF Dr. Pai-Po Lee July 16, 2020

Outline

Impacts of COVID-19 on SDGs and Response Strategies

SUSTAINABLE GOALS

 Setbacks in SDGs with cross-sector issues & disproportional impacts on vulnerable people

Advantages of the Taiwan Model

- Comprehensive and connected eco-system
- Smart technology
- Public-Private-People Partnership (PPPP)
- International cooperation

Cross

Sector

- Food security & rural development
- Health
- Learning & capacity building
- Governance
- Climate change & sustainable environment
- Economy development & global partnership

STI Practices for Better Resilience while Achieving SDGs

Digital Environment and Capacity

Application of ICT for Educational Development Project

Digitalized Information and Data

Health Information
Management Efficiency
Enhancement Project in
Paraguay

Technology

Diversified Application

- COVID-19 Cases Monitoring System
- Surubi Fingerling
 Breeding and
 Cultivation Project

Innovation

Science

STI Practices for Digital Environment and Capacity

The Application of Information and Communication Technology for Educational Development

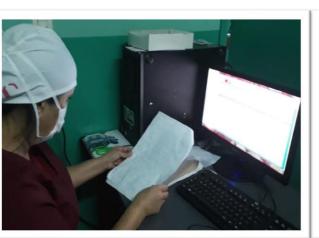

STI Practices for Digitalized Information & Data

3 GOOD HEALTH AND WELL-BEING

Health Information Management Efficiency Enhancement Project in Paraguay

- Introduced Health Information System (HIS)
- Digitalized health and medical records
- Linked hospital information to National Health System
- Developed case tracking function
- ➤ Developed tele-consultation function in HIS for social distancing

STI Practices for Diversified Application

Map of Disease – a Taiwanese volunteer is utilizing GIS skills to help monitor diseases, such as Dengue Fever and Coronavirus, in St. Vincent

& the Grenadines

Geographic Information System

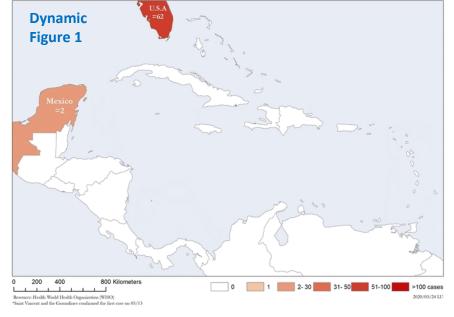

Help aggregate and integrate data into one database

Change the way GIS data is collected and processed

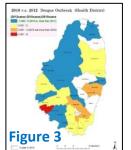

Enhance data visualization for analyses and planning

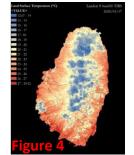

Provide capacity building in GIS knowledge and modelling

3/01 Coronavirus Confirmed Cases

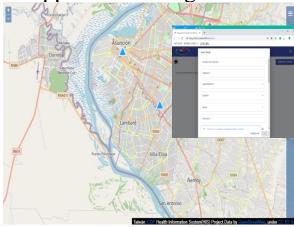

STI Practices for Diversified Application

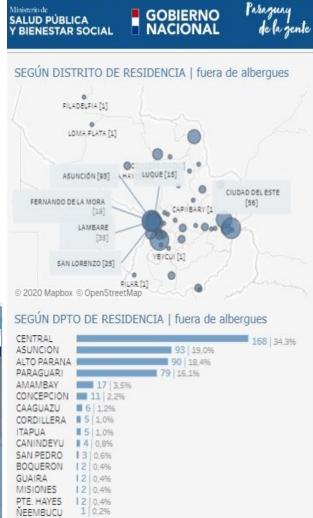

8 DECENT WORK AND ECONOMIC GROWTH

Surubi Fingerling Breeding and Cultivation Project

- Application platform
 - Building connections between aquaculture producers and consumers during lockdown
 - Providing direct links and bridging the distance between producers and consumers
 - Sustaining sales activities and avoiding unnecessary contact to prevent the spread of COVID-19
 - Covering other livelihood supplies including dairy, honey, fruits,
 and vegetables in the

and vegetables in the near future

Innovative Global Partnerships Catalyzed by the Pandemic

Financing Tools for Economic Reactivation Post COVID-19

Providing catalytic capital to the Women's Livelihood Bond(WLB) Series to support underserved women and girls in South and Southeast Asia in transforming to sustainable and COVID-resilient livelihoods.

Focus on the role of **social impact** in financing sustainable development.

Paris Declaration on Aid Effectiveness

- Harmonization
- Ownership

Innovative Global Partnerships Catalyzed by the Pandemic

Emergency Support and Preparedness Program for COVID-19 and **Economic Reactivation**

On-lending to:
Governments
and public
sector

institutions

Credit to Finance
Public Sector
Operations

Financial Sector
Support Facility for
MSMEs

On-lending to:

Public and private banks, nonbank financial institutions, cooperative and savings banks

MFI C

Conclusion

Comprehensive

- Assisting partners in building digital platform and capacity, making use of data, and applying STI in the post COVID-19 era
- Designing cross-sector solutions to enhance total resilience

Proactive

- Supporting financial institutions and MSMEs overcome the COVID-19 pandemic
- Creating new SDGs tools with STI development
- Innovating new applications of STI for achieving SDGs by 2030

Partnership

- Expanding scope of cooperation and sharing best practices with international allies and partners
- Strengthening Public-Private-People Partnership (PPPP)
- Cooperating with bilateral and multilateral development partners

Thank you!

A Better World, A Brighter Future
