

03

Workshop on Carbon Footprint Verification

Date : April 9-18, 2025

Application Deadline : March 7, 2025

*Invitation Required: Contact R.O.C. (Taiwan) embassies, representative offices or Taiwan Technical missions.

TAIWAN

Overview

With the rise in awareness of climate change, carbon footprint verification has become a critical tool for businesses to achieve reduction targets and align with global standards. This workshop will explore trends in carbon trading mechanisms, Taiwan's greenhouse gas reduction regulations, and the methodologies and the best practices for verifying carbon footprints, offering practical insights for developing and implementing effective net-zero strategies.

Objectives

- Understand Taiwan's carbon policies and global trends.
- Master standards and certification for footprint verification.

Contents

- **Taiwan's Carbon Management Policies and Practices:** Overview of the Climate Change Response Act, voluntary reduction and offset measures, and examples from Taiwan's carbon trading platform.
- **Carbon Footprint Methods and Standards:** Analysis of procedures and practical applications, covering scope definitions and international standards like ISO14064 and ISO14067, with case studies on corporate carbon management and footprint verification in Taiwan.

Issues this workshop will address

- The necessity and challenges of carbon footprint calculation and audits for SMEs.

Who may apply

- **Background :** Governmental officials, industry heads and members of NGOs or international organizations.
- **Expertise:** GHG management, green finance, low-carbon transition, and climate adaptation.
