

Nursing Aid Training Course (English/Spanish)

Course Schedule

- Stage 1(Online Section): July 11 to 25, 2024
- Stage 2(In-person Section): October 2 to 31, 2024

Registration Deadline

- June 28, 2024

Invitation Required: Through the R.O.C(Taiwan) embassies, representative offices.

Overview

As the global population continues to age, the demand for healthcare and other long-term care services continues to grow worldwide. This course answers this need by teaching core skills related to infection control in healthcare facilities. By the end of this course, participants will be better equipped to prevent or manage communicable diseases and healthcare-associated infections, enhancing their medical response capabilities.

Course Structure

- **Stage 1:** Participants will learn about infectious diseases and disease control concepts for long-term care facilities. (20 hr)
- **Stage 2:** Participants will complete hands-on training in Taiwan for various topics related to infectious disease control and clinical care (155 hr):
 - Prevention and management of infectious diseases and outbreaks.
 - Practical hand hygiene procedures.
 - Nutrition management and gastrointestinal infection control.
 - Patient care procedures and aseptic techniques.
 - Medical material management and cleaning procedures for care facilities.
 - Practical visits to day-care institutions.

Eligibility

Healthcare and management professionals currently employed at medical institutions or care facilities, or instructors at government vocational training organizations.
